HARVEST

Count fish caught by all players this year

PRICE

Per fish
Same for all players

 > 10 →  1

 7-10 →  2

 < 7 →  3

- 1. Expedition:** play one technology card at the same time.
- 2. Priority:** you can bid to harvest first (not necessary).
- 3. Harvest:** clockwise starting from the player with the steering wheel, catch the number of fish corresponding card you played.
- 4. Market price:** determine the price per fish for the year by looking at the price chart.
- 5. Income:** monetize fish.
- 6. Investment:** you can acquire technology cards by paying the cost reported on the top right corner.
- 7. Regeneration:** for each 3 remaining fish, add 1 fish to the pool.
- 8. End year:** move the year marker. Pass the steering wheel clockwise.

Game over after 3 consecutive turns with scarce harvest (less than 7 fish overall)
